## EMEE Virtual Summer Workshop 2022

**July 7 - 8, 2022**

Centre for Energy Policy and Economics (CEPE)  
ETH Zurich, Zürichbergstr. 32, Zurich  
Yale School of the Environment (YSE)  
Yale University, USA

The 2<sup>nd</sup> edition of the EMEE Virtual Summer Workshop for doctoral students and early career researchers will be held online on **July 7- 8, 2022**.

The EMEE (Empirical Methods in Energy Economics) Summer Workshop is a space of discussion for doctoral students and early career researchers (such as post-docs) about development and application of empirical methods in energy economics. The objective of the workshop is to have a friendly venue for doctoral students and early career researchers to receive feedback on their work from peers and selected faculty from the EMEE organizing committee.

To foster a lively debate and exchange of ideas about new empirical research in energy economics, we especially welcome submissions based on state-of-the-art econometric techniques, rigorous study designs and with important policy implications.

The Summer Workshop will include presentations and egg timer sessions, with time for discussion and feedback.

There is no participation fee. We invite doctoral students and early career researchers (such as post-docs) who wish to be considered for presentations to submit extended abstracts (3 - 5 pages) structured as follows: 1) overview, 2) methods, 3) data and 4) preliminary results. Students and researchers interested in receiving feedback on new and less developed research ideas (egg-timers) are invited to submit a 1-2 page abstract.

**The deadline for submitting the abstracts (in PDF format) is May 13th, 2022.** The abstracts will be reviewed by the Scientific Committee (see below), with acceptance decisions notified at the beginning of June 2022. The abstracts should be attached as PDF file to an email sent to the workshop address ([emee-workshop@ethz.ch](mailto:emee-workshop@ethz.ch)). Please write "EMEE Summer Workshop paper

submission” in the email subject and specify whether you wish to be considered for the longer presentations, the shorter egg-timer presentations, or both.

**Registration** will open in June (no registration fee).

**EMEE Scientific Committee:**

- Anna Alberini, University of Maryland, USA
- David Broadstock, National University of Singapore, Singapore
- Massimo Filippini, CEPE, ETH Zurich and USI, Switzerland
- Ken Gillingham, Yale University, USA
- Sébastien Houde, Grenoble Ecole de Management, and CEPE at ETH Zurich, Switzerland
- Davide Cerruti, CEPE at ETH Zurich, Switzerland
- Simon Lang, Yale School of the Environment (YSE), Yale University, USA

**Summer Workshop organizers:**

- Massimo Filippini, CEPE at ETH Zurich and USI, Switzerland
- Kenneth Gillingham, Yale School of the Environment (YSE), Yale University, USA

Please send all queries to the workshop address ([emee-workshop@ethz.ch](mailto:emee-workshop@ethz.ch)).
